# A NURSING

School Project & 50 Bed Hospital Under supervision of

Women's Welfare for health & Education Services &

BAQA Foundation At

ST. JONES Hospital Landhi

**Karachi.**

Nursing is the Profession in which services are limit less for the persons who are deserved for it, in our modern society no other profession or skills compete it. Nurses served their patients as they are their love one. When a person joins this profession, He/She just thinks about the services of deserving human beings without any matelistic benefits. They perform their professional duties round the clock without any kind of irritation, across the border, no differentiation of Race, Religion and other same issues of any society. Although, in Pakistan many nursing schools running successfully since very first day of Pakistan, in which some are very prominent, reliable and have well skilled professional faculty.

In government sectors many nursing schools running and providing nurses every year for Pakistan and Also some provide their services for abroad.

In government sectors nursing schools fesses ratio are very economical as compare to private sector. Standard of Quality Education of Nursing Depends on facilities provided by the nursing school, well standard prominent professionals of every faculty, more opportunities for learning, and peaceful environment is the basic and necessary requirement of any teaching institute.

With a clear serviceable vision and positive approach in the medical field WHAE'S & BAQA foundation took a first step in the shape of a nursing school name of ST.JONES located at Landhi, Karachi.

In Past Area of Landhi is very neglected by the high authorities of Karachi, but right now it became a well stable in business activities. Huge educated population and peaceful atmosphere and

Landhi near by or touches the area of, Akhtar Colony, Manzoor Colony, Qayyum Abad, Korangi Industrial area, Shah Faisal Colony, Malir and Korangi, means Three towns are attached and about to 20 to 25 laces population living these territories.

These all Population depends on, for nursing education JPMC/Indus Hospital Korangi and 2 or 3 private Hospitals. Limited seats in nursing every year many willing students disappointed due to crowd of students.

WHAE'S already running very successfully ultra sound certificate training program for medical professionals from 2010. In different hospitals of Karachi with reputable and prominent sinologist.(introductory bruchers attached)

Baqa foundation is also working in Health & Education Sector from Last Five Year. They arranged free Medical Camps on different location of Karachi, Specially on Slum and neglected areas of the city. They also arranged free blood bank camps for deserving person. They are working purely on humetarin basis. In education sector they collect complete profile and data of all private and governments sector school which will be very beneficial for government's authorities as well as NGOS.

Nursing faculty will be consist on well skilled, fame professional of every specialty.

Nursing School Staff will be consist on following members.

1. Principal
2. Administrator
3. Accountant
4. Office Secretary
5. Receptionist
6. Security Guards

Teaching Faculty of a Nursing School will be consist on following member.

- |                           |                    |
